Introductory

The present volume for the year 1937 is the fifty-ninth edition of Henderson's Directory of Winnipeg, the first being published in 1878.

THE DEPARTMENT OF MISCELLANEOUS INFORMATION is included in pages 265 to 280 and contains data concerning City, Provincial and Federal Government offices, commercial organizations and military organizations.

THE STREET AND AVENUE GUIDE gives the names of all streets and avenues arranged alphabetically, showing the location, number on the street and name of the occupant. The intersecting streets are shown in the order that they come.

The BUYERS GUIDE occupies pages 1 to 36. This section of the Directory provides a [illegible] reporting numerous [illegible] of the leading manufacturing and commercial houses of the city, and [illegible] many interesting phases of the city's activities. They are not display advertisements, primarily however, but rather are reference advertising at its best. The need for this kind of information readily at hand is very great and the general appreciation of this need is evidenced by the liberal patronage the City Directory enjoys in many and varied lines of trade.

THE ALPHABETICAL LIST OF NAMES of citizens, business firms and corporations [illegible].

THE CLASSIFIED BUSINESS DIRECTORY commences at page 1245, and exhibits the [illegible] appropriate to the class of industry or profession followed.

ADVERTISING WINNIPEG

An important function of the Directory is to set forth the characteristics and advantages of the city as a place of residence, as a business location, as an industrial site, and as an educational centre. The Directory acts as a mirror, reflecting all that is noteworthy in the city in the above respects. In order to spread this information regarding the city broadcast over the country, the publishers have placed copies of this issue of the directory in the directory libraries where they are readily available for reference use by the public. There they serve as perpetual advertisements of Winnipeg, for business men the country over realize that the City Directory represents the community as it really is.

POPULATION GREATER WINNIPEG 309,215

The Directory estimate of population is based on the actual number of individuals' names in the Alphabetical section of the Directory, with due allowance for children and for women whose names are not listed. The Winnipeg Directory covers considerable territory beyond but tributary to the city limits, which is canvassed in order that the names of all people employed or who purchase in Winnipeg may be obtained.

Respectfully The Publishers,

HENDERSON DIRECTORIES LIMITED.

PUBLISHERS' NOTE

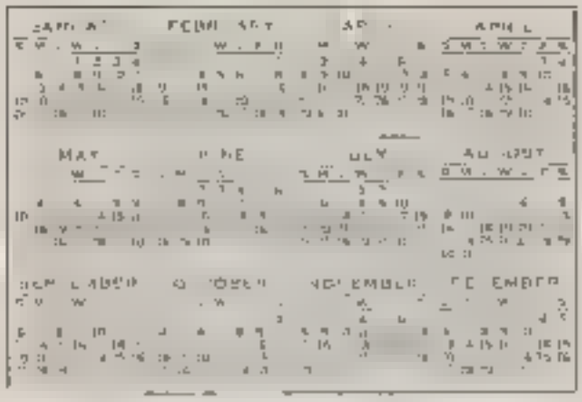

The information in this directory is gathered by an actual house to house canvass, and is compiled in a way to insure maximum accuracy.

The Publishers cannot and do not guarantee the correctness of all information furnished them nor the complete absence of errors and omissions, hence no responsibility for same can be or is assumed.

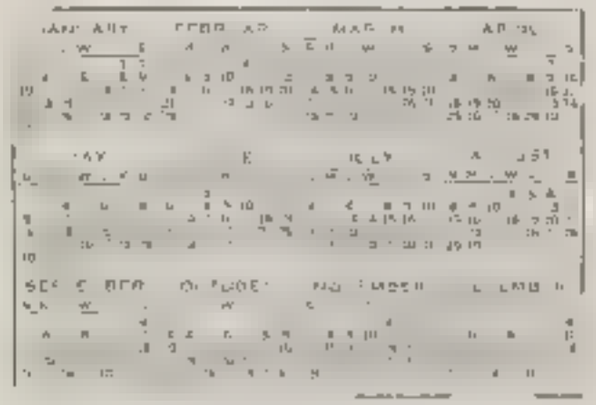

The Publishers earnestly request the bringing to their attention of any inaccuracy so that it may be corrected in the next Directory.

Henderson's Winnipeg Streets and Avenues

1937

This section is presented in condensed form. Full information will be found in the Alphabetical Directory.

AVENUES all run East and West and are numbered under 200 East of Main Street, Main to Princess 200 to 300, West of Princess 200 and upwards.

STREETS running North and South are numbered from the Assiniboine River as a base Northwards, and again from Notre Dame as a base Northwards.

The word "street" is always implied.

NOTICE

✦ The Symbol following the residence name, indicates that to the best of our knowledge someone living in the house is the owner.

✆ This Symbol indicates that a telephone is located at this number on the street.

This new Home Owners, Tenants and Phone Directory is compiled from information taken on a special house-to-house personal canvass. We do not pretend to claim absolute correctness in every detail but we believe it to be most accurate and complete as far as it has been possible for us to get same information personally from someone at each residence. Where occupants have been absent the "owner" information has been left out
